FELIX RODRIGUEZ | QA ENGINEER | ANALISTA QA MANUAL | QA TESTER

Professional profile

Industrial Engineer with 5+ years in L2/L3 technical support and incident management, transitioning into QA Engineering. Recently completed a QA Testing Bootcamp (TripleTen) with hands-on experience in manual testing, test case design, API testing (Postman), SQL validation, bug tracking (Jira), and test automation with Selenium WebDriver + Python (Page Object Model). Strong background in Linux, log analysis, and production issue replication. Seeking a QA role in a quality-driven team.

Technical skills:

- Test case design and execution
- Manual testing: Test case design, checklists, boundary values, equivalence classes
- Automation tools: Selenium WebDriver, Python, Page Object Model, pytest
- Test management: ServiceNow/Jira, bug reporting, test documentation, and defect tracking
- API testing: Postman, REST, status codes, JSON validation
- Basic knowledge of software architecture and development (Python, JavaScript)
- Databases: SQL queries and data handling
- Design and debugging tools: DevTools, Figma, GitHub.

Competencies

- Effective collaboration and communication with development teams and functional analysts
- Time management and task prioritization
- Problem-solving mindset and attention to detail.

QA PROJECTS

QA Engineer | Bootcamp | TripleTen
Urban Scooter – Manual & API Testing

- Designed a 28-item checklist and 60+ data validation cases covering form fields, order flow, and mobile notifications.
- Executed 30+ test cases on a courier mobile app (Android emulator), identifying 25+ defects reported in Jira.
- Tested REST APIs with Postman (GET, POST, PUT, DELETE), validating status codes, payloads, and error handling.
- Validated backend data with SQL (JOINs, GROUP BY, LIKE) to confirm order and courier integrity.
- Tools: Jira, Postman, SQL, Android emulator, Chrome, Firefox.

QA Engineer | Bootcamp | TripleTen
Urban Routes – Test Automation

- Built a Page Object Model (POM) framework automating 9+ end-to-end test cases for a ride-hailing web app.
- Implemented explicit waits (WebDriverWait) and dynamic locators (XPath, CSS) to reduce flaky tests.
- Used Chrome DevTools Protocol (CDP) to retrieve SMS confirmation codes from performance logs during test execution.
- Tools: Python, Selenium WebDriver, pytest, Git.

---

Experience

L2 Support Engineer | Little Caesars
10/2024 - 10/2026

- Linux administration and support.
- Worked on 15+ tickets per day.
- Identified and validated production issues.
- Reduced fix verification by 20%.
- Developed scripts to check the heartbeat of services.
- Worked with ticket management tool Service Now.

L3 Support Engineer | RBI Restaurant Brands International
10/2022 - 08/2024

- Triaged and tracked 25+ defects per week through their full lifecycle, ensuring 100% proper closure.
- Replicated customer-reported issues in controlled environments for testing, enabling faster root-cause analysis.
- Escalated unresolved issues to internal and external teams following standard procedures.
- Provided prompt and accurate feedback to customers, maintaining a 90%+ satisfaction rate.

Service Desk Analyst Lvl 2 | Wipro Technologies
06/2022 - 09/2022

- Owned 30+ customer issues per week from report to resolution, documenting each step in the knowledge base.
- Diagnosed and troubleshot technical issues, identifying solutions and escalating when needed.
- Ensured accurate recording and closure of all tickets, contributing to a 95%+ closure rate.
- Escalation of unsolved issues to appropriate internal teams.
- Provide prompt and accurate feedback to customers.

Infrastructure and EUC Support Engineer | Tata Consultancy Services
04/2021 - 04/2022

- Supported 100+ endpoints (desktops, laptops, mobile devices) across a hybrid environment.
- Ensured security software and policies were up to date, reducing compliance gaps by 10%.
- Provided remote support and assistance, resolving 85%+ of incidents on first contact.
- Executed on/offboarding workflows, managing accounts and assets for 20+ employees per month.

Education

B.Sc. Industrial Engineering | Tecnológico Nacional de México
B.SC. Data Engineering | Universidad Politécnica de Guanajuato (In progress, flexible model)

Certifications/Other

Certifications

- QA Engineer | TripleTen
- TOEFL Certification
- APTIS Certification

Other

- Passport
- Driver’s Licence
- B1/B2 USA Visa
