FELIX RODRIGUEZ | QA ENGINEER

QA Automation Engineer with 5+ years of experience in technical support and software testing. Skilled in building End-to-End (E2E) automation frameworks using Selenium (Python) and Playwright (C#/.NET), applying Page Object Model (POM) and CI/CD pipelines via GitHub Actions. Strong background in API testing (Postman), defect tracking (Jira), and Linux log analysis. Recently completed a QA Bootcamp (TripleTen) to formalize test automation expertise. Seeking an Automation role where I can apply my scripting and analytical skills.

Technical skills:

- Automation Tools: Selenium WebDriver, Playwright, Python, C#, Page Object Model (POM), pytest, NUnit.
- CI/CD & DevOps: GitHub Actions, Git, Command Line Interface (Bash).
- API & Database: Postman (REST), SQL queries (JOINs, GROUP BY).
- Test Management: Jira, ServiceNow, bug reporting, test documentation.
- Manual Testing: Test case design, checklists, boundary values, equivalence classes.

Competencies

- Effective collaboration and communication with development teams and functional analysts.
- Time management and task prioritization.
- Problem-solving mindset and attention to detail.

QA PROJECTS

QA Engineer | Bootcamp | TripleTen
Playwright Automation — C# & .NET

- Developed an E2E automation framework using Microsoft's modern stack: Playwright with .NET and C#.
- Implemented Page Object Model (POM) and NUnit for maintainable test suites, eliminating flaky tests through Playwright's auto-waiting features.
- Integrated a CI/CD pipeline via GitHub Actions to execute automated tests on every push.
- Link: https://github.com/felixed380/dotnet-playwright-1

QA Engineer | Bootcamp | TripleTen
Urban Scooter – Manual & API Testing

- Designed a 28-item checklist and 60+ data validation cases covering form fields, order flow, and mobile notifications.
- Executed 30+ test cases on a courier mobile app (Android emulator), identifying 25+ defects reported in Jira.
- Tested REST APIs with Postman (GET, POST, PUT, DELETE), validating status codes, payloads, and error handling.
- Validated backend data with SQL (JOINs, GROUP BY, LIKE) to confirm order and courier integrity.
- Tools: Jira, Postman, SQL, Android emulator, Chrome, Firefox.
- Link: https://github.com/felixed380/UrbanScooterProject

QA Engineer | Bootcamp | TripleTen
Urban Routes – Test Automation

- Built a Page Object Model (POM) framework automating 9+ end-to-end test cases for a ride-hailing web app.
- Implemented explicit waits (WebDriverWait) and dynamic locators (XPath, CSS) to reduce flaky tests.
- Used Chrome DevTools Protocol (CDP) to retrieve SMS confirmation codes from performance logs during test execution.
- Tools: Python, Selenium WebDriver, pytest, Git.

---

Experience

L2 Support Engineer | Little Caesars
10/2024 - 10/2026

- Incident Management: Handled 15+ technical tickets per day using ServiceNow, ensuring SLA compliance and quick resolution.
- Validation & Testing: Identified and validated production issues in test environments before release, reducing fix verification time by 20%.

- Monitoring: Analyzed system logs (kubectl logs, grep) and managed MicroK8s deployments to ensure testing/staging environment stability.
- Scripting & Automation: Developed Bash scripts to automate repetitive log parsing tasks and monitor service heartbeats, improving efficiency in staging environments.

L3 Support Engineer | RBI Restaurant Brands International
10/2022 - 08/2024

- API Testing: Designed and executed tests on REST APIs using Postman for the restaurant digital menu, validating GET/POST requests, payloads, and error handling.
- Defect Management: Documented and tracked 25+ defects per week in Jira, ensuring 100% proper lifecycle closure and collaborating with developers on fixes.
- Root Cause Analysis: Replicated complex customer issues in controlled test environments and analyzed Linux logs to identify the root cause of authentication and transaction failures.
- Support: Triaged and escalated unresolved issues to internal and external teams, maintaining a 90%+ customer satisfaction rate.

Service Desk Analyst Lvl 2 | Wipro Technologies
06/2022 - 09/2022

- Owned 30+ customer issues per week from report to resolution, documenting each step in the knowledge base.
- Diagnosed and troubleshot technical issues, identifying solutions and escalating when needed.
- Ensured accurate recording and closure of all tickets, contributing to a 95%+ closure rate.
- Escalation of unsolved issues to appropriate internal teams.
- Provide prompt and accurate feedback to customers.

Infrastructure and EUC Support Engineer | Tata Consultancy Services
04/2021 - 04/2022

- Supported 100+ endpoints (desktops, laptops, mobile devices) across a hybrid environment.
- Ensured security software and policies were up to date, reducing compliance gaps by 10%.
- Provided remote support and assistance, resolving 85%+ of incidents on first contact.
- Executed on/offboarding workflows, managing accounts and assets for 20+ employees per month.

Education

B.Sc. Industrial Engineering | Tecnológico Nacional de México
B.SC. Data Engineering | Universidad Politécnica de Guanajuato (In progress, flexible model)

Certifications/Other

Certifications

- QA Engineer | TripleTen
- TOEFL Certification
- APTIS Certification

Other

- Passport
- Driver’s Licence
- B1/B2 USA Visa
